VIRTUAL CINEMA

We’re working hard behind the scenes to bring you a carefully curated selection of films to view at home during this period of uncertainty. As a means to keep us all connected and also to help support The Moviehouse through this difficult time.

How It Works
After purchasing your ticket, you will be provided an access code to view the movie, which you can view on any internet-connected device including laptops, tablets and smartphones and most Smart TVs (see each distributor’s FAQ or instructions on how to configure for your TV).

Cost
The ticket price & viewing window will be different for each hosting distributor & will be included in the information about each film on our website and in our emails.

How It Helps
The film’s distributor will donate a percentage of the ticket revenue to support The Moviehouse!*

*You must use the ticket links on our website or in our emails which lead to The Moviehouse’s designated page.

We hope you enjoy these movies, and thank you for your continued support!
